

Turquoise Trail Corridor Management Plan

Version 1.0

Maps

Nomination Maps

The following two maps are used for the nomination submittal and are only part of the CMPs that are submitted for nomination. The corridor boundaries are hand marked on the maps. The maps are available for purchase from the U. S. Geological Survey, Denver, CO 80225. They are also available in Albuquerque, New Mexico at outdoor sports stores such as REI or map stores such as Holmans.

- Albuquerque New Mexico BLM Edition 1:100,000 1994
- Los Alamos New Mexico BLM Edition 1:100,000 1990

Corridor Management Plan Maps

Maps showing the byway's corridor boundaries and land use are electronically marked on maps on Chapter 1. The easy to read maps in this appendix show the location of the Turquoise Trail's intrinsic qualities that are of national and regional significance. Additional maps will be added in the second quarter of 2000 when the Intrinsic Quality database project is completed. Details for the intrinsic qualities, including their location, are in Chapter 5.

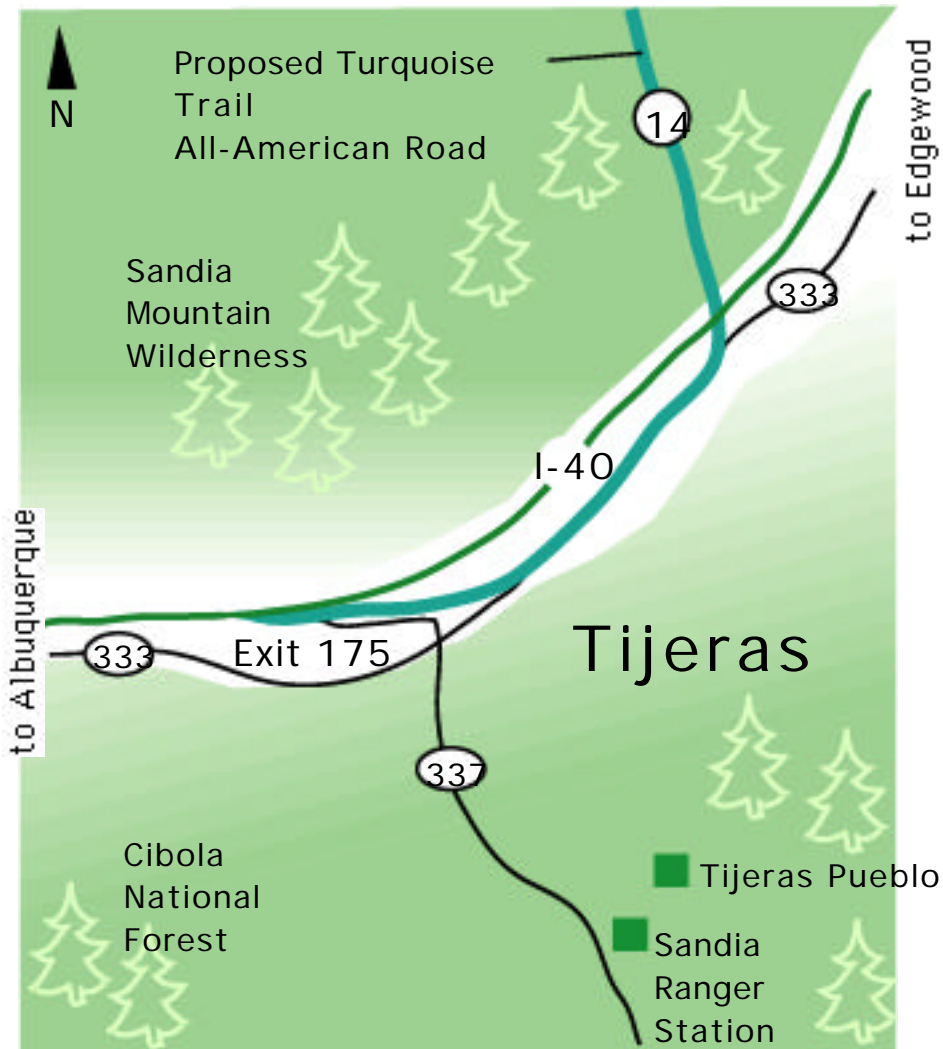

Turquoise Trail Corridor Management Plan
Version 1.0

Proposed Turquoise Trail All-American Road

The Turquoise Trail is located in New Mexico approximately 15 minutes to the west of Albuquerque, New Mexico and immediately south of Santa Fe, New Mexico.

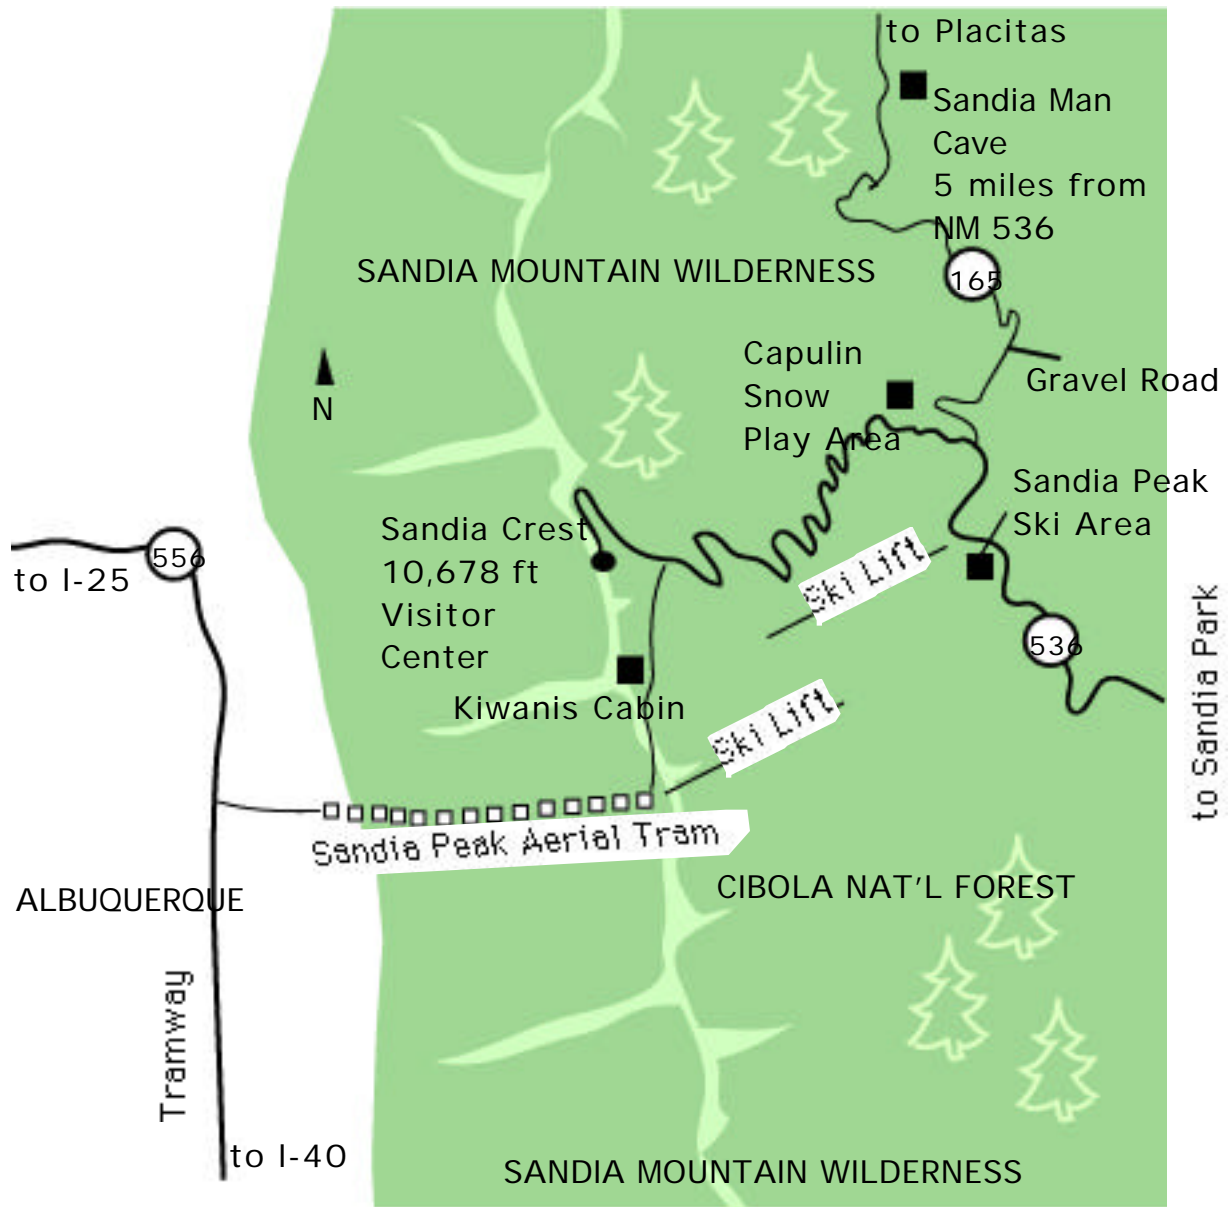

Turquoise Trail Corridor Management Plan
Version 1.0

Note: The proposed All American Road Southern terminus starts at the Sandia Ranger Station.

Asset	Intrinsic Quality	Significance
